

Welcome to the

Future of Video Surveillance

Cloud-Enabled & Al-Powered IoT Surveillance Solution

About Zygal

Ushering a New Era of Intelligent Surveillance

The age of AI has arrived, and at Zygal, we are redefining how you think about surveillance!

With over 10 years of expertise in product development and manufacturing, we are focused on our singular vision to bring in a new era of Al-powered Internet of Things (AloT) video surveillance solutions.

Zygal has been revolutionizing security solutions through cloud capabilities and artificial intelligence with our state-of-the-art assembly & SMT unit, and a strong team of 120+ R&D professionals spanning Hardware & Software Design and AI/ML Engineers.

With a robust track record in catering to industry giants in BFSI, retail, logistics and supply, Zygal stands as a trusted partner in safeguarding some of the most critical sectors in India. Currently, we monitor 3.5+ million connected devices and 1.2+ billion alerts across 25k+ locations around the country.

Certifications

Zygal AloT Cloud VMS Platform

Future-Ready Monitoring with Intelligence at the Core

AIoT Cloud VMS Platform

Enterprise-Ready & Al-powered Video Management Platform

Manage surveillance across various locations with our unified, cloud-based platform with built-in machine learning capabilities that are open, scalable, secure and straightforward. The platform integrates all third-party cameras, existing sensors, access control systems, dashboards, external viewers, and communication systems. It continually analyzes video feeds in real-time, making it ideal for both on-premise deployments and large dispersed business installations.

Control at Your Fingertips

Hassle-free, centralized web-based interface that can be accessed from anywhere with no additional plugins or installations.

Detect Objects and Events

Get immediate alerts based on pre-defined SOP and unusual activity detection.

Smarter, Faster Al-Powered Analysis

Filter through hours of video feed in minutes to gain actionable and accurate insights into people, behaviours, vehicles, events, or other objects in real-time.

Improved Operational And Occupancy Awareness

Use map view, generate heat maps, detect intruders, trigger missing staff alerts, and monitor time access to improve efficiency and decision-making.

Robotic Process Automation

Monitor and optimize defined SOPs with minimal human intervention and 100% accuracy.

Seamless Integration

Add new devices and sites or integrate your existing enterprise systems on one unified, scalable cloud platform - all at no extra cost.

Secure End-to-End Encryption

Safeguard sensitive information with encrypted data transmission and storage, secure remote access, and automated software updates from the cloud.

Video Solutions

Meet Our Range of Cloud-based Al Cameras

Say goodbye to outdated surveillance with our range of cloud-connected cameras

ZYGAL Mini Dome

Elevate your surveillance game with our sleek powerhouse - Mini Dome

ZYGAL Mini Dome

Basic Features

- **4 MP, 2.8 mm Fixed Lens:** Higher resolution ensures sharper image quality
- Turret Dome with IR: Offers versatile surveillance capabilities
- IP Camera with POE: Enables easy and efficient connectivity
- Metal + Plastic Body: Durable construction for longevity
- IP66 Weatherproof: Complete weather resistance
- ONVIF Compatibility: Effortless integration into existing systems
- Mic: Enhanced audio capture

Al Features

- AVCA Compression: Enhanced data efficiency for better storage and bandwidth management
- Al-Based Playback: Detailed analysis for better insights

Special Features

- Health Check: Ensures constant connectivity for uninterrupted surveillance
- Cloud Backup: Automated data protection to prevent loss
- Adaptive IR: Enhanced imaging in varying light conditions

Mini Dome Specifications

Image sensor	4MP
Image sensor size format	1/3 Inch
Type of Enclousre	Plastic with Metal- IP66
Lens	Focal length: 2.8mm Aperture: f1.6 Fixed lens
IR night vision	Adaptive IR IR-cut filter IR range: 15m
Maximum resolution & Frame rate	Main stream: 4MP 2560×1440@25fps Sub-stream: D1(720*576), VGA (640*360)
Dynamic range	DWDR
Video compression	H.264+AVCA, H.265+AVCA
Speaker Support	NA
SD/TF Card	NA
Audio	In built Microphone
Security	TLS 1.2/AES128
Network protocols	IPv4, HTTPS, TLS, DNS, mDNS, DNS-SD, NTP, Onvif Profile S, G, T RTSP, RTP, RTCP, ICMP, DHCP, ARP Streaming: RTP/UDP, RTP/RTSP/HTTPS/TCP
Power source	PoE, 12v DC
Power consumption	12v 1A
Connection	PoE Ethernet, 12V DC connector
Installation aid	Mount template Screws and wall plugs included

ZYGAL Dome

Secure your premises effectively with our Dome camera

ZYGAL Dome

Basic Features

- **4 MP, 2.8 mm Fixed Lens:** Higher resolution ensures sharper image quality
- Vandal-Proof Dome: Resilience against tampering
- IP Camera with POE: Enables easy and efficient connectivity
- Metal Body: Durable construction for longevity
- IP66 Weatherproof: Complete weather resistance
- ONVIF Compatibility: Effortless integration into existing systems
- TF Card Storage Up To 256 GB: Extended data retention
- Mic: Enhanced audio capture

Al Features

- AVCA Compression: Enhanced data efficiency for better storage and bandwidth management
- AI-Based Intrusion Detection:
 Augmented security with
 proactive threat identification
- Al-Based Playback: Detailed analysis for better insights

Special Features

- **Health Check:** Ensures constant connectivity for uninterrupted surveillance
- Cloud Backup: Automated data protection to prevent loss
- Adaptive IR: Enhanced imaging in varying light conditions
- Speaker: Improved communication

Dome Specifications

lmage sensor	4MP
Image sensor size format	1/3 Inch
Type of Enclousre	Metal Vandal Proof IK10/IP66
Lens	Focal length: 2.8mm/4mm Aperture: f1.6 Fixed Iens
IR night vision	Adaptive IR IR-cut filter IR range: 15m
Maximum resolution & Frame rate	Main stream: 4MP 2560×1440@25fps Sub-stream: D1(720*576), VGA (640*360)
Dynamic range	DWDR
Video compression	H.264+AVCA, H.265+AVCA
Speaker Support	Early Warning Alert
SD/TF Card	256GB
Audio	In built Microphone
Security	TLS 1.2/AES128
Network protocols	IPv4, HTTPS, TLS, DNS, mDNS, DNS-SD, NTP, Onvif Profile S, G, T RTSP, RTP, RTCP, ICMP, DHCP, ARP Streaming: RTP/UDP, RTP/RTSP/HTTPS/TCP
Power source	PoE, 12v DC
Power consumption	12v 1A
Connection	PoE Ethernet, 12V DC connector
Installation aid	Mount template Screws and wall plugs included

ZYGAL Dome Plus

Upgrade to the ultimate surveillance sentinel with Dome Plus

ZYGAL Dome Plus

Basic Features

- 5 MP/8 MP (4K) Fixed Lense: Enhanced zoom capability
- Vandal-Proof Dome: Resilience against tampering
- IP Camera with POE: Enables easy and efficient connectivity
- **Metal Body:** Durable construction for longevity
- IP66 Weatherproof: Complete weather resistance
- ONVIF Compatibility: Effortless integration into existing systems
- TF Card Storage Up To 256 GB:
 Extended data retention
- Mic: Enhanced audio capture

Al Features

- **AVCA Compression:** Enhanced data efficiency for better storage and bandwidth management
- AI-Based Intrusion Detection:
 Augmented security with proactive threat identification
 - Human, Vehicle, and Face Detection: Precise identification for comprehensive surveillance
- Al-Based Playback: Detailedanalysis for better insights

Special Features

- Health Check: Ensures constant connectivity for uninterrupted surveillance
- Cloud Backup: Automated data protection to prevent loss
- Adaptive IR: Enhanced imaging in varying light conditions
- Speaker: Improved communication

Dome Plus Specifications

Image sensor	8MP
Image sensor size format	1/2.8 Inch
Type of Enclousre	Metal Vandal Proof IK10/IP66
Lens	Focal length: 2.8mm/4mm Aperture: f1.6 Fixed lens
IR night vision	Adaptive IR IR-cut filter IR range: 15m
Maximum resolution & Frame rate	Main stream: 8MP 3840*2160@20fps , 5MP 2592*1904@25fps Sub-stream: D1(720*576)@25fps,VGA (640*480)@25fps,Q720P(640*360)@25fps
Dynamic range	120db WDR (true)
Video compression	H.264+AVCA, H.265+AVCA
Speaker Support	Early Warning Alert
SD/TF Card	256GB
Audio	In built Microphone
Security	TLS 1.2/AES128
Network protocols	IPv4, HTTPS, TLS, DNS, mDNS, DNS-SD, NTP, Onvif Profile S, G, T RTSP, RTP, RTCP, ICMP, DHCP, ARP Streaming: RTP/UDP, RTP/RTSP/HTTPS/TCP
Power source	PoE, 12v DC
Power consumption	12v 1A
Connection	PoE Ethernet, 12V DC connector
Installation aid	Mount template Screws and wall plugs included

ZYGAL Bullet

Experience next-level security with our Bullet camera

ZYGAL Bullet

Basic Features

- 4 MP, 4 mm Fixed Lens: Clearer and more detailed image capture
 - **Bullet Design:** Streamlined and robust form
- IP Camera with POE: Enables easy and efficient connectivity
 - **Metal Body:** Durable construction for longevity
- IP66 Weatherproof: Complete weather resistance
- ONVIF Compatibility: Effortless integration into existing systems
- TF Card Storage Up To 256 GB:
 Extended data retention
- Mic: Enhanced audio capture

Al Features

- AVCA Compression: Efficient storage without compromising quality
- AI-Based Intrusion Detection:
 Augmented security with
 proactive threat identification
- Al-Based Playback: Detailed analysis for better insights

Special Features

- Health Check: Ensures constant connectivity for uninterrupted surveillance
- Cloud Backup: Automated data protection to prevent loss
- Dual IR With White Light: Enhances visibility, provides color in night vision and acts as a deterrent
- Speaker: Improved communication

Bullet Specifications

Image sensor	4MP
Image sensor size format	1/3 Inch
Type of Enclousre	Metal - IP66
Lens	Focal length: 4mm Aperture: f1.6 Fixed lens
IR night vision	Adaptive IR Dual Light with IR and White IR-cut filter IR range: 15m
Maximum resolution & Frame rate	Main stream: 4MP 2560×1440@25fps Sub-stream: D1(720*576), VGA (640*360)
Dynamic range	DWDR
Video compression	H.264+AVCA, H.265+AVCA
Speaker Support	Early Warning Alert
SD/TF Card	256GB
Audio	In built Microphone
Security	TLS 1.2/AES128
Network protocols	IPv4, HTTPS, TLS, DNS, mDNS, DNS-SD, NTP, Onvif Profile S, G, T RTSP, RTP, RTCP, ICMP, DHCP, ARP Streaming: RTP/UDP, RTP/RTSP/HTTPS/TCP
Power source	PoE, 12v DC
Power consumption	12v 1A
Connection	PoE Ethernet, 12V DC connector
Installation aid	Mount template Screws and wall plugs included

ZYGAL Bullet Plus

Step into superior surveillancewith Bullet Plus

ZYGAL Bullet Plus

Basic Features

- 5 MP/8 MP (4K) Varifocal Lense: High-resolution monitoring for precise analysis
- IP Camera with POE: Enables easy and efficient connectivity
- Metal Body: Durable construction for longevity
- IP66 Weatherproof: Complete weather resistance
- ONVIF Compatibility: Effortless integration into existing systems
- TF Card Storage Up To 256 GB: Extended data retention

Al Features

- **AVCA Compression:** Efficient storage without compromising quality
- Al-Based Intrusion Detection: Augmented security with proactive threat identification
- Human, Vehicle, and License Plate Recognition: Precise identification for comprehensive surveillance
- Al-Based Playback: Detailed analysis for better insights

Special Features

- Health Check: Ensures constant connectivity for uninterrupted surveillance
- Cloud Backup: Automated data protection to prevent loss
- Adaptive IR: Enhanced imaging in varying light conditions

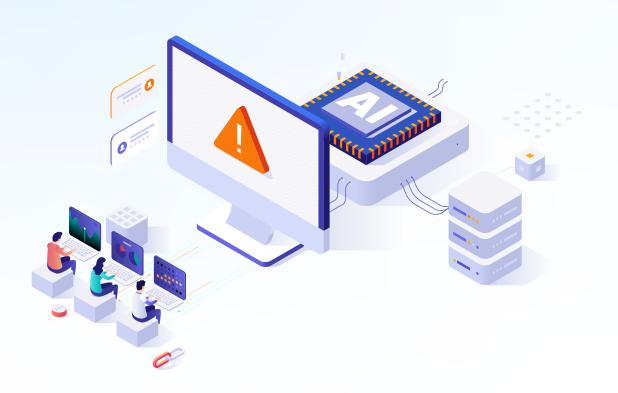

Bullet Plus Specifications

lmage sensor	8MP
Image sensor size format	1/2.8 Inch
Type of Enclousre	Metal - IP66
Lens	Focal length: 5.4mm-97.2mm Aperture: f1.8-f3.9 Varifocal lens
IR night vision	Adaptive IR IR-cut filter IR range: 20m
Maximum resolution & Frame rate	Main stream: 8MP 3840*2160@20fps , 5MP 2592*1904@25fps Sub-stream: D1(720*576)@25fps, VGA(640*480)@25fps,Q720P(640*360)@25fps
Dynamic range	120db WDR (true)
Video compression	H.264+AVCA, H.265+AVCA
Speaker Support	NA
SD/TF Card	256GB
Audio	NA
Security	TLS 1.2/AES128
Network protocols	IPv4, HTTPS, TLS, DNS, mDNS, DNS-SD, NTP, Onvif Profile S, G, T RTSP, RTP, RTCP, ICMP, DHCP, ARP Streaming: RTP/UDP, RTP/RTSP/HTTPS/TCP
Power source	PoE, 12v DC
Power consumption	12v 1A
Connection	PoE Ethernet, 12V DC connector
Installation aid	Mount template Screws and wall plugs included

Zygal Integrated Command & Control Centre

Cloud-based & Al-powered technology platform that unifies your security ecosystem

Integrated Solutions

Set-up Your Own Integrated Command & Control Centre with India's Biggest Cloud Solution Provider with with State-of-the-art Al RPA (Robotic Process Automation)

Zygal's integrated command and control solution offers businesses a cloud-based & Al-powered technology platform that unifies cameras, sensor data, workflows, and SOPs. The ability to visualize and optimize operations on a unified and intuitive interface provides real-time monitoring, continuous assessment and situational awareness to trigger immediate response.

KEY FEATURES:

- End-to-end Data Encryption with AES 256 and additional hardware-level key
- High-performance P2P, TURN, STUN server implementation for seamless video streaming
- 40+ AI/ML Models implemented on the platform
- Full-stack application ecosystem

Integrating People, Processes & Al into a Single Powerful Ecosystem

Robotic Process Automation

80% Manpower Savings. 100% Compliant.

with the first RPA tool for the e-surveillance industry

Workflow Management

Adds a layer of intelligence to business processes. Visualize, optimize, and adapt your workflows in real-time to enjoy enhanced productivity and resource utilization.

SOP Integration

Ensure compliance, consistency, and accuracy in business operations by enforcing standardized processes, reducing deviations, and achieving a higher level of quality assurance.

40+ Advanced AI & ML modules for custom AI Solutions

Custom solutions that empower organizations to address unique challenges and capitalize on opportunities.

High performance, never-to-miss incident

Live device data and notifications for Quick actions as per their WFM and SOP

Agent alert measurement using AI and FR

Accurate assessment of security personnel but also empowers organizations to proactively address potential vulnerabilities.

Zygal Access Control Solutions

With Time Attendance Solutions

Access Control

Introducing Flex: Cloud-based Access Control System With Time Attendance Management

Forget the traditional ways of controlling access to any entryway like RFID-based key cards and biometric locks, which come with its own set of challenges. Our state-of-the-art yet user-friendly access control solution is easy to install, integrates with your existing ecosystem and simplifies the entire system for admins, making it even more secure.

Key Features:

Turn Any Phone into a Virtual Key Card

Cloud-connected mobile app access solution allows users to unlock doors or gain entry by tapping their mobile devices without the need for physical keys or access cards.

Role-based Access Control

Set up gated access to critical areas within the organisation as per roles. Access can be allocated to authorized personnel only, floor and room-wise.

FR-Based Attendance Management

Allows enterprises to manage their employees' attendance using mobile tap entry and facial recognition technology.

Remote-Location Attendance

Allows employees the flexibility to log in and out from any location. Along with face capture, the app also stores location data to ensure authenticity and time-tracking logs.

Diverse Use Cases

Efficient Office Entry Management

Enhance office security with our access control system designed for streamlined entry management. Our solution provides a seamless and secure environment, allowing only authorized personnel into office premises.

Airtight Security For Banks & Vaults

Your key to secure vaults is here. Our access control solution ensures complete protection of vaults with 2-way authentication. We empower organisations with centralised control, safeguarding against theft, burglary, and unauthorised access to your valuable assets.

Simplified Parking or Vehicle Entry Management

Our innovative Bluetooth-powered solution with adjustable range settings is ideal for parking management and secure access in housing societies. Skip the wait for security personnel – easily access boom barriers via our smartphone app.

Smart Turnstile Gate Entry

Revolutionize turnstile-based entry points with our intelligent access control system. Designed for high-traffic areas, our solution ensures smooth and secure entry, offering both convenience and robust security measures.
